Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and Investment Policy

- The Fund is a passively-managed Exchange-Traded Fund (ETF), which aims to track the net total return performance of the FTSE All Share ex Investment Trusts ESG Climate Select Index (the "Index")¹, less fees, expenses and transaction costs.
- In order to achieve the investment objective, the Fund will as far as possible and practicable, hold all the shares in the Index in their respective weightings.
- The Fund's shares are listed on one or more Stock Exchange(s). Generally, only Authorised Participants may subscribe or redeem shares directly with the Fund. Other investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances other investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund's base currency is GBP.
- **Dividend Policy:** This share class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the Clearing House Automated Payment System (CHAPS) is open. Please refer to the prospectus for further information.
- **The Index:** The Index tracks the performance of large- and mid-capitalisation companies in the UK equity market and, by re-weighting constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase exposure to those companies demonstrating a robust ESG profile, those generating an increased percentage of their revenue from green projects, and those that exhibit lower levels of carbon emissions and fossil fuel reserves. The Reference Index is constructed from the FTSE All-Share ex Investment Trusts Index ("the Parent Index") by using the Index Provider's ESG exclusionary criteria to exclude from the Parent Index securities that: 1) have faced very severe controversies pertaining to ESG issues (including UN Global Compact violations); and 2) are involved (as defined by the Index Provider) in any of the following business activities: Arctic oil and gas exploration, adult entertainment, controversial weapons, small arms, gambling, military contracting, nuclear power, oil sands, thermal coal, recreational cannabis and tobacco. The Index is rebalanced quarterly.

---	---	---	---	---	---	---

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **General Investment Risk:** The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- **Concentration risk:** The Fund might be concentrated in a specific region or sector or be exposed to a limited number of positions, which might result in greater fluctuations in the value of the Fund than for a fund that is more diversified.
- **Equity Risk:** The value of equities and equity-related securities can be affected by a number of factors including the activities and results of the issuer and general and regional economic and market conditions. This may result in fluctuations in the value of the Fund.
- **Environmental, Social and Governance Risk:** The Fund intends to invest in securities of issuers that manage their ESG exposures better relative to their peers. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities. The Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.
- For more information on risks, please see the Fund prospectus under "Risk Factors", which is available at etf.invesco.com (select your country and navigate to Product/Prospectus).
