Objectives and Investment Policy

- The Fund is an actively-managed Exchange-Traded Fund ("ETF"), which aims to seek total return by investing in a portfolio of corporate bonds that meet certain environmental, social, and corporate governance ("ESG") criteria.
- Total return means returns incorporating income and capital growth.
- To achieve the investment objective, the Fund will generally invest in a portfolio of fixed rate euro denominated unsecured corporate bonds from global issuers with an investment grade credit rating and less than or equal to 5 years until maturity which are selected based on two criteria: 1) compliance with the Fund's ESG policy (the "ESG Policy"); and 2) attractiveness determined in accordance with the Investment Manager's quantitative investment model.
- The Fund's shares are listed on one or more Stock Exchange(s). Generally, only Authorised Participants may subscribe or redeem shares directly with the Fund. Other investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances other investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund's base currency is EUR.
- **Benchmark:** The Fund is actively-managed and is not constrained by a benchmark. The performance of the Fund may be compared to the Bloomberg Euro Corporate Bond 1-5 Year Index, for comparison purposes.
- **Dividend Policy:** This share class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the Trans-European Real-Time Gross Settlement Express Transfer (TARGET-2) System is open. Please refer to the prospectus for further information.

- The Share Class is in risk category 3 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **General Investment Risk:** The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- **Currency risk:** The Fund's performance may be adversely affected by variations in the exchange rates between the base currency of the Fund and the currencies to which the Fund is exposed.
- **Credit risk:** The creditworthiness of the debt the Fund is exposed to may weaken and result in fluctuations in the value of the Fund. There is no guarantee the issuers of debt will repay the interest and capital on the redemption date. The risk is higher when the Fund is exposed to high yield debt securities.
- **Interest Rate Risk:** Changes in interest rates will result in fluctuations in the value of the Fund.
- **Environmental, Social and Governance Risk:** The Fund intends to invest in securities of issuers that manage their ESG exposures better relative to their peers. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities. The Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.
