Invesco S&P SmallCap 600 UCITS ETF (the "Fund") A sub-fund of Invesco Markets plc (the "Umbrella Fund") Acc (ISIN: IE00BH3YZ803) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The Fund is an Exchange-Traded Fund (ETF), which aims to achieve the performance of the S&P SmallCap 600 Index (the "Index")¹.
- The Fund does this through the use of unfunded swaps ("Swaps"). These Swaps are an agreement between the Fund and an approved counterparty to exchange one stream of cash flows against another stream but do not require the Fund to provide collateral, on the basis the Fund has already invested in a basket of equities and equity related securities (namely shares). The performance of the Index is swapped from the counterparty to the Fund in exchange for the performance of equities and equity related securities.
- The use of Swaps may multiply the gains or losses made by the Fund.
- The Fund shares are listed on one or more Stock Exchange(s). Only Authorised Participants may subscribe or redeem shares directly with the Fund. Other investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances, other investors will be permitted to redeem their shares directly from the Invesco Markets plc in accordance with the redemption procedures set out in the Prospectus, subject to applicable laws and any relevant charges.
- The Fund's base currency is USD.
- **Dividend Policy:** This Fund declares and distributes a dividend on a quarterly basis.
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the United States Federal Reserve System is open. Please refer to the prospectus for further information.
- **The Index:** The Index is an index of listed equities which focuses on the small cap segment of the US market. The Index contains the smallest 600 companies from the S&P 1500 composite index, which is the largest 1500 companies in the US market. It includes 600 US companies listed on NYSE, NASDAQ, Investors Exchange or CBOE. The Index is rebalanced on a quarterly basis.

¹ Investors should note that the Index is the intellectual property of the index provider.

The Fund is not sponsored or endorsed by the index provider and a full disclaimer can be found in the Fund's prospectus.

Risk and Reward Profile

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- Main risks not covered by the above indicator which could negatively affect the net asset value of the Fund:
- **Counterparty Risk:** Other financial institutions provide services such as safekeeping of assets or as a counterparty to financial contracts such as derivatives. The Fund is exposed to the risk of bankruptcy, or any other type of default of the counterparty related to any trading transaction entered into by the Fund.
- **Risk of using Derivatives:** in order to reach its investment objective, the Fund enters into swap agreements which provide the performance of the Index, and may imply a range of risks which could lead to an adjustment or even the early termination of the swap agreement.
- **Liquidity on secondary market risk:** As the shares of the Fund are listed on one or more stock exchange(s) there may be insufficient demand to buy or sell the shares which may cause the price to be different than the actual value of the net asset value of the Fund.
- **Equity Risk:** Shares of companies are generally considered high risk investments and may result in fluctuations in the value of the Fund due to external factors.
- For more information on risks, please see the Fund prospectus under "Risk Factors", which is available at etf.invesco.com (select your country and navigate to Product/Prospectus).

- *Authorised Participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 3%. Although not charged directly to investors who are not Authorised Participants, these charges may have an impact on brokerage fees, transaction fees and / or the bid-ask spread. Currently, the Fund is not exercising its entitlement to apply entry and exit charges.
- The ongoing charge is based on the fee paid to the Manager. It excludes portfolio transaction costs except in the case of an entry or exit charge paid by the Fund when buying or selling shares/units in another fund.
- Because the Fund is an ETF, investors will typically only be able to buy or sell shares in the secondary market. You should discuss these fees and costs with your broker before you invest, as they may reduce the amount of your initial investment and the amount you receive on disposal.
- For more information on charges, please see the relevant charges section in the Fund supplement under "General Information Relating to the Fund", which is available at etf.invesco.com (select your country and navigate to Library/Supplement)
