Objectives and Investment Policy

- The Fund is an Exchange-Traded Fund (ETF), which aims to achieve the performance of the MDAX[®] Index (the "Index")¹.
- In order to achieve the investment objective, the Fund will employ a replication method that looks to invest predominantly in securities that as closely as possible match the constituents of the Index.
- The Fund's shares are listed on one or more Stock Exchange(s). Generally, only Authorised Participants may subscribe or redeem shares directly with the Fund. Other investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances other investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund's base currency is EUR.
- **Dividend Policy:** This share class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the Trans-European Real-time Gross Settlement Express Transfer (TARGET-2) system is open. Please refer to the prospectus for further information.
- **The Index:** The Index is comprised of 60 medium-sized German public limited companies from all industries that rank directly below the 30 large-sized companies (based on market capitalisation and order book turnover) which comprise the DAX. The Index is weighted by free-float market capitalisation, with no company being allowed to account for more than 10% of the Index. Foreign companies primarily active in Germany may also be included in the index. To be eligible for inclusion in the Index companies must have (i) an existing listing in the prime standard segment of the Deutsche Börse AG, Frankfurter Wertpapierbörse, (ii) continuous trading on Xetra[®], the trading venue operated by the Deutsche Börse AG, Frankfurter Wertpapierbörse, (iii) a minimum free float of 10%, and (iii) legal headquarters or operating headquarters in Germany. Risk and Reward Profile

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- Main risks not covered by the above indicator which could negatively affect the net asset value of the Fund:
- **Capital is not guaranteed:** The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- **Index tracking:** The Fund will not replicate the performance of its Index perfectly, this is because the Fund will incur drags on performance such as expenses and transactions costs, which the Index is not subject to. If the Fund is unable to hold the securities in the exact proportion required this will affect its ability to track the Index.
- **Liquidity on secondary market risk:** Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily. Onexchange liquidity may be limited due to Index suspension, a decision by one of the relevant stock exchanges, a breach by the market maker or respective stock exchange requirements and guidelines.
- **Country Concentration Risk:** In tracking the Index, the Fund will be concentrated in a single country or a small number of countries. Investors should be prepared to accept a higher degree of risk than for a fund that is geographically diversified.
- **Value of securities:** The value of securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- For more information on risks, please see the Fund prospectus under "Risk Factors", which is available at etf.invesco.com (select your country and navigate to Product/Prospectus).

- *Authorised Participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 3%.
