Acc (the "Share Class")

Exchange Traded Fund (ETF)  
ISIN: IE00BF51JZ00

### Objective and Investment Policy

The Invesco Italian PIR Multi-Asset Portfolio UCITS ETF aims to achieve the performance of a basket of reference indices as set out below (the "Reference Basket")<sup>1</sup>.

The Reference Basket will consist of indices in the following target allocations:

- FTSE Italia All-Share Index: 20%
- FTSE Italia Small Cap Index: 15%
- FTSE Italia STAR Index: 20%
- NASDAQ Global BuyBack Achievers Index: 15%
- FTSE Italian Corporate Bond Select Index: 20%
- Citi Time-Weighted US Fallen Angel Bond Select Index: 7%.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest predominately in securities that as closely as possible match the constituents of the Reference Basket.

The Fund's shares are listed on one or more Stock Exchange(s). Generally, only Authorised Participants may subscribe or redeem shares directly with the Fund. Other investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances other investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the

redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges. The Fund's base currency is EUR.

**Dividend Policy:** This class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.

**Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day which the United States Federal Reserve System and the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) are open. Please refer to the prospectus for further information.

**The Reference Basket:** The Reference Basket is designed to generate capital growth and income through exposure primarily to Italian equity and fixed income markets together with an allocation to global equity and fixed income exposure for diversification by tracking each index with the allocation as set out above, with a small allocation to cash. Further details on each of the underlying indices can be found in the Fund's prospectus. The Reference Basket is reset to its target allocation on a quarterly basis.

### Risk and reward profile

**This Fund is rated 5. This rating is not a measure of the risk of capital loss, but a measure of the Fund's price movement over time. This rating:**

- is based on historical data, which may be comparative, and may not be representative of future rating.
- as a result, this risk estimation may not be a reliable indicator of future risk and may be subject to change over time.
- is classified in the category indicated above due to its past behaviour, which may be comparative. The lowest category does not mean risk free investment.
- is designed to help investors understand the uncertainties both for loss and for growth that may affect their investment.
- does not provide its investors with any guarantee on performance, nor on the performance of monies invested in it.

Main risks not covered by the above indicator which could negatively affect the net asset value of the Fund:

- **Capital is not guaranteed:** The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- **Index tracking:** The Fund will not replicate the performance of its Reference Basket perfectly, this is because the Fund will incur drags on performance such as expenses and transactions costs, which the Reference Basket is not subject to. If the Fund is

unable to hold the securities in the exact proportion required this will affect its ability to track the Reference Basket.

- **Liquidity on secondary market risk:** Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily. On-exchange liquidity may be limited due to underlying index suspension, a decision by one of the relevant stock exchanges, a breach by the market maker or respective stock exchange requirements and guidelines.
  - **Value of securities:** The value of securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - **PIR compliance:** While an investment in the Fund is intended to be eligible for the purposes of "Piani Individuali di Risparmio a lungo termine" (PIR) (Law 232/2016), no guarantee is made that the Fund will continue to be eligible, and investors should make their own assessment on the PIR eligibility of the Fund before investing.
  - **Concentration of risk:** Investment risk is concentrated in Italy. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.
- For more information on risks, please see the Fund prospectus under "Risk Factors", which is available at [etf.invesco.com](http://etf.invesco.com) (select your country and navigate to Product/Prospectus)
