

# Invesco ETF Securities Lending

For Professional Investors, Qualified Investors, and Qualified Clients only

90% of revenue from securities lending goes to the ETF

Only Invesco US Treasury Bond UCITS ETFs included from outset

Indemnification provided by BNY Mellon

## About our Securities Lending programme

Invesco is launching a programme in November 2019 whereby selected ETFs may engage in securities lending for the purpose of enhancing overall performance for the benefit of investors. This document provides details of the Securities Lending programme, but please contact us if you have further queries.

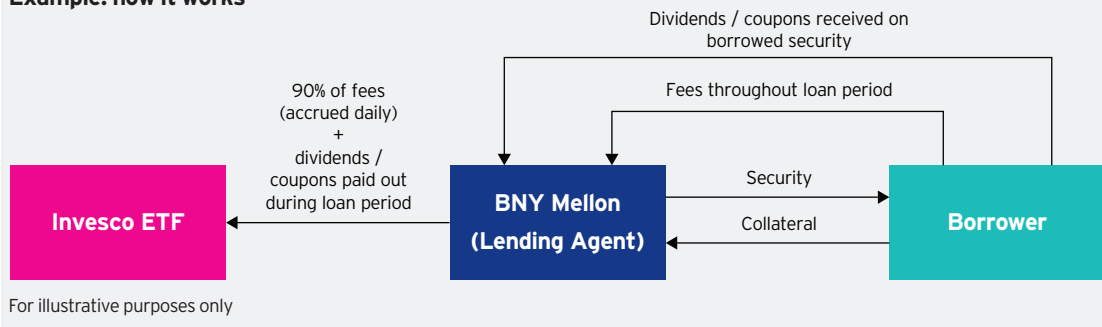

## What is Securities Lending?

Securities Lending is a well-established practice involving the short-term transfer (loan) of securities, for either a defined or open-ended time period. The borrower of the securities posts collateral and pays an agreed fee for the duration of the loan as well as returning any dividends or coupons received from those securities. On termination of the loan, the borrower is obliged to return the securities. Invesco's Securities Lending programme will be administered and managed by a third-party Lending Agent, Bank of New York Mellon (BNY Mellon).

## Who receives revenues from Invesco's programme?

The Invesco ETF will receive **90% of the revenue** arising from securities lending, with the remaining 10% deducted by the Lending Agent for its fees and to cover direct and indirect operational costs. Invesco will not receive any revenue from the programme. Revenue is accrued daily within the fund.

## Example: how it works

## Which Invesco ETFs will engage in securities lending?

Only the **Invesco US Treasury UCITS ETFs** range will be involved in securities lending from the outset. Other Invesco ETFs may be included in the programme in future as determined on a case-by-case basis. The decision for each ETF will be based on a variety of factors such as expected level of returns to shareholders, portfolio size, holdings, investment guidelines, operational responsibilities, market conditions, tax implications and equity ratios.

ETFs with an environmental, social and corporate governance (ESG) focus will be excluded from the Securities Lending programme. This decision is due to the ETF being unable to exercise its voting rights while the securities are on loan, unless the shares can be recalled for the purposes of voting.

To see whether a specific Invesco ETF is involved in securities lending, please see the relevant product page at [etf.invesco.com](http://etf.invesco.com), where the involvement (or not) will be clearly stated. The website will be updated as and when further ETFs are added to the programme.

## How will this affect my investment?

Only those Invesco ETFs that are engaged in securities lending will be affected. The objective of the programme is to enhance performance of the ETF(s) with the revenues received from borrowers. The amount of revenues - and in turn the potential performance enhancement - will vary depending on the amount of the ETF's securities being loaned as well as the terms negotiated by the Lending Agent.

Securities lending involves additional risks, including the risk that the borrower is unable to return the securities at the end of the loan period. This "counterparty risk" is being mitigated through the credit analysis and approval process of potential borrowers, as well as maintenance of suitable collateral and, ultimately, indemnification provided by BNY Mellon. Details follow below.

## Programme parameters

The proportion of assets per ETF that may be subject to securities lending will be up to a maximum of **50% for fixed income ETFs** and up to a maximum of **15% for equity ETFs**.

A maximum of 90% of an individual security held by an ETF will be subject to securities lending.

For collateral posted by borrowers, the following concentration limit will apply:

- Maximum 10% of the loan per single security

In addition, the following parameters will apply in respect of equity collateral:

- Maximum 1 x 90-day average daily traded volume (ADTV) per security
- Maximum 1% of the market capitalisation per security
- Maximum 10% of the collateral value per issuer (issuer concentration in a collateral pool of a single borrower may not exceed 10% per issuer)
- Sector concentration restricted to 25%

## Collateral haircuts\*:

Securities loaned	Equities	Collateral type
		Government, Supranational and Agency bonds
Equities	105-110%	102-105%
Government bonds	110%	102-105%
Corporate bonds	110%	102-105%

\*Please note the Lending Agent may require additional collateral from the borrower in certain circumstances, such as when the collateral and loaned security are in different currencies. For example, a borrower of USD-denominated Treasuries would have to post collateral of 102% of the loan value if using USD-denominated bonds, or 105% of the value if using bonds in another currency. The additional collateral can provide cushion for the ETF in the event of adverse foreign exchange movements during the loan period.

## Collateral

Borrowers must post suitable collateral of at least the amount specified in the table above, as a percentage of the securities being borrowed. This mitigates the risk to the ETF and its investors from the unlikely event of the borrower being unable to return the securities at the end of the loan period. The collateral is held by the Depositary, BNY Mellon Trust Company (Ireland).

Acceptable types of collateral include debt obligations and securities issued by the government or agencies of an OECD member country or select supranational organisations, or equities listed on one of the approved US, European or Japanese indices specified in the programme. Full details of acceptable collateral are available on request.

Please note that cash is not currently permitted as collateral.

## Indemnification

The indemnity provided by BNY Mellon allows for full replacement of the securities lent if the collateral received does not cover the value of the securities loaned in the event of a borrower default.

## Lending Agent

We have selected BNY Mellon to manage and administer the Securities Lending programme. They have the industry's largest securities lending programme, with US\$4 trillion of lendable assets and US\$430 billion on loan. BNY Mellon's credit rating is Aa2/AA<sup>-1</sup>.

As lending agent, BNY Mellon will be responsible for conducting credit analysis on each of the potential borrowers approved by Invesco. BNY Mellon will also be responsible for negotiating terms of the loans with borrowers, indemnifying the ETFs in the event of borrower default or delay and monitoring the securities and collateral.

BNY Mellon will provide the revenue earned from the loans to the ETF(s) on a monthly basis in the currency earned, 10 business days after month end. They will provide a daily earnings report to allow daily accruals to be booked.

## Who can borrow

Each potential borrower goes through both a credit analysis conducted by BNY Mellon and formal approval process by Invesco before being accepted into the programme. All borrowers are required to have and maintain a minimum credit rating of A2 (Standard & Poor's) / P2 (Moody's). The list of approved borrowers will be reviewed by BNY Mellon and Invesco on an ongoing basis.

BNY Mellon provides the ETF with indemnity in case of default or delay by the borrower. BNY Mellon is responsible for making the ETF "whole" for any costs incurred because of a delay or default from a borrower in returning loaned securities or any dividends / coupons paid.

## Obligations of the borrower

When a security is loaned, the title and ownership are transferred to the borrower, who is obligated to return the same amount and type of security on termination of the loan. The borrower is also obligated to return all dividends and coupons received on the borrowed securities, including any result of corporate actions.

BNY Mellon will contractually settle all income and dividends on loaned securities on the same day that it would have otherwise been credited had the securities not been on loan, in accordance with the pay standards of each country. BNY Mellon then takes the responsibility for collection of the income or dividend from the borrower.

## Details of what has been loaned and collateral being held

Details of the securities and percentages on loan as well as the collateral held will be reported on a monthly basis. The report can be found on the relevant product page at [etf.invesco.com](http://etf.invesco.com).

## Investment risks

Investment strategies involve numerous risks. Investors should note that the price of your investment may go down as well as up. As a result, you may not get back the amount of capital you invest.

## Important information

This document contains information that is for discussion purposes only and is intended only for professional investors in Austria, Denmark, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden and the UK, Qualified Clients in Israel, and Qualified Investors in Switzerland. Marketing materials may only be distributed in other jurisdictions in compliance with private placement rules and local regulations.

Data as at 14 October 2019, unless otherwise stated.

All investment decisions must be based only on the most up to date legal offering documents. The legal offering documents (fund and share class specific Key Investor Information Document (KIID), prospectus, annual & semi-annual reports, articles & trustee deed) are available free of charge on our website [etf.invesco.com](http://etf.invesco.com) and from the issuers.

This document should not be considered financial advice. Persons interested in acquiring the product should inform themselves as to (i) the legal requirements in the countries of their nationality, residence, ordinary residence or domicile; (ii) any foreign exchange controls and (iii) any relevant tax consequences.

UCITS ETF's units / shares purchased on the secondary market cannot usually be sold directly back to UCITS ETF. Investors must buy and sell units / shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current net asset value when buying units / shares and may receive less than the current net asset value when selling them.

For the full objectives and investment policy please consult the current prospectus.

German investors may obtain the offering documents free of charge in paper or electronic form from the issuer or from the German information and paying agent (Marcard, Stein & Co AG, Ballindamm 36, 20095 Hamburg, Germany).

In Israel, the contents of this document are restricted to Qualified Clients (pursuant to the First Schedule to the Israeli Regulation of Investment Advice, Investment Marketing and Investment Portfolio Management Law, 1995) only and are not intended for retail or private investors who are not Qualified Clients.

The publication of the supplement in Italy does not imply any judgment by CONSOB on an investment in a product. The list of products listed in Italy, and the offering documents for and the supplement of each product are available: (i) at [etf.invesco.com](http://etf.invesco.com) (along with the audited annual report and the unaudited half-year reports); and (ii) on the website of the Italian Stock Exchange [borsaitalia.it](http://borsaitalia.it).

The representative for the sub-funds of Invesco Markets III plc in Switzerland is Invesco Asset Management (Schweiz) AG, Talacker 34, 8001 Zurich. The representative for the sub-funds of Invesco Markets plc, Invesco Markets II plc, and PIMCO Fixed Income Source ETFs plc in Switzerland, and the paying agent for the sub-funds across all of these platforms, is BNP Paribas Securities Services, Paris, succursale de Zurich, Selnaustrasse 16, 8002 Zurich, Switzerland. The offering documents, articles of incorporation and annual and semi-annual reports may be obtained free of charge from the relevant representative in Switzerland. The ETFs are domiciled in Ireland.
