The value of your investment may go down as well as up. As a result, you may not get back the amount of capital you invest.

What are ETFs?

ETFs are open-ended UCITS funds. Unlike traditional open-ended funds, ETFs can be bought and sold on a stock exchange like ordinary shares.

How does this ETF achieve its investment objective?

The ETF uses physical replication to aim to achieve the target index performance. The ETF invests its assets directly in the constituents of the benchmark index.
