TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective of the Fund

The investment objective of the Fund is to achieve the net total return performance of the Dow Jones Islamic Market Developed Markets Index (the "**Reference Index**") less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out below under "**General Description of the Reference Index**".

Investment Policy of the Fund

In order to achieve the investment objective, the Company will employ a sampling strategy ("**Sampling Strategy**"), which includes the use of quantitative analysis and uses factors such as country weights, industry sector weights, market capitalisation, dividend yield and liquidity to select securities from the Reference Index that results in a portfolio that has an investment profile similar to that of the Reference Index. Investments made by the Fund will be compliant with Shari'ah guidelines prescribed by the Index Provider. The Shari'ah committee (the "**Shari'ah Committee**") appointed by the Investment Manager will be responsible for determining compliance of the Fund's investments with Shari'ah. Further information on the Shari'ah Committee is set out below under the heading "**Shari'ah Committee**".

The Fund shall not hold securities which are not component securities of the Reference Index, unless their future inclusion into the Reference Index is anticipated (which is determined by reference to the Reference Index rebalancing file which may be published by the Index Provider prior to each rebalancing date, as set out under the heading "Index Rebalancing"). The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes

necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "**Investment Objective and Policies**" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank and provided that investment in such assets complies with Shari'ah.

The Fund may also engage in transactions in FDIs for hedging provided that such action is done in a manner believed to be consistent with Shari'ah. The Fund may use the following Shari'ah-compliant FDIs listed on a Market or traded OTC, as applicable: forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "**Appendix III – Efficient Portfolio Management and Use of Financial Derivative Instruments**".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS provided that such other UCITS and/or open or closed ended CIS have been deemed compliant with Shari'ah.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "**Investment Objectives & Policies**" and under "**Investment Restrictions and Permitted Investments**".

The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities outlined in Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment.

The methodology for the Reference Index considers principal adverse impacts on sustainability factors primarily through exclusions which correspond to at least one of the indicators in Table 1, Annex 1 to the regulatory technical standards to SFDR. The next annual report for the Fund will provide information on principal adverse impacts on sustainability factors.

Index Tracking Strategy

The Manager aims to keep the "Tracking Error" of the Fund (being the standard deviation of the difference in returns between the Fund and the Reference Index) between 0.10% and 1% under normal market conditions. However, exceptional circumstances may arise which cause the Fund's Tracking Error to exceed 1%.

Investment Restrictions of the Fund

In addition to the compliance of the Fund's investments with Shari'ah, investors in particular must note that the general investment restrictions set out under "**Investment Restrictions and Permitted Investments**" in the Prospectus apply to the Fund.

Shari'ah Committee

Compliance with Shari'ah in the operations of the Fund shall be determined by the Shari'ah Committee. The Shari'ah Committee consists of Shari'ah scholars with expertise in Islamic investment. The Shari'ah Committee's primary duties are to: (i) advise on the Shari'ah aspects of the Fund; (ii) issue an opinion, by way of a Fatwa, ruling or guidelines as to whether the activities of the Fund complies with Shari'ah; and (iii) make recommendations or issue guidance as to how the Fund could be made Shari'ah compliant. The Shari'ah Committee is **not** responsible for the management or supervision of the Company or the Fund nor for determining which securities from the Reference Index the Fund may invest in.

The Shari'ah Committee has issued a Fatwa in respect of the Fund. Subject to the Fund's compliance with Shari'ah, the Shari'ah Committee will issue an annual Shari'ah compliance certificate for the Fund.

The Index Provider maintains a Shari'ah Supervisory Board (as defined in the Index Methodology) which determines parameters to ensure the Shari'ah compliance of the Reference Index. Further details on the Reference Index are described under the heading "General Description of the Reference Index" below.

Efficient Portfolio Management

Further information on efficient portfolio management techniques that may be used by the Fund is contained in the main body of the Prospectus under the heading "**Use of Financial Derivative Instruments and Efficient Portfolio Management**".

Securities Financing Transactions

The Fund shall not engage in securities financing transactions.

Currency Hedging Policy

Provided that such action is believed to be compliant with Shari'ah, the Fund may enter into transactions for the purposes of hedging the foreign exchange exposure in any hedged Share Classes (identified by "Hdg" in their names). The purpose of the hedging in the hedged Share Classes is to limit, at a Share Class level, the profit or loss generated from foreign exchange exposure when holding an asset in a currency other than the Base Currency of the Fund. This is achieved by the hedged Share Classes employing 30 day rolling forward FX contracts, which are rolled monthly.

All costs and losses arising in relation to such currency hedging transactions will be borne by the hedged Share Class and all gains arising in connection with such hedging transactions will be attributable to the relevant Share Class. Although the Fund may utilise currency hedging transactions in respect of Share Classes, it shall not be obliged to do so and to the extent that it does employ strategies aimed at hedging certain Share Classes, there can be no assurance that such strategies will be effective. The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging the currency exposure for the benefit of any particular Share Class of the Fund (where the currency of a particular Share Class is different to the Base Currency of the Fund) shall be attributable exclusively to the Share Class. Under exceptional circumstances, such as, but not limited to, where it is reasonably expected that the cost of performing the hedge will be in excess of the benefit derived and therefore detrimental to Shareholders, the Company may decide not to hedge the currency exposure of such Share Classes.

Where the Investment Manager seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Company. However, over-hedged positions will not exceed 105% of the Net Asset Value of the relevant Share Class and hedged positions will be kept under review to ensure that over-hedged positions do not exceed the permitted level and that under-hedged positions do not fall short of 95% of the portion of the Net Asset Value of the relevant Share Class and any under-hedged position will be kept under review to ensure it is not carried forward from month-to-month. This review will also incorporate a procedure to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month.

Further information on currency hedging at Share Class level is contained in the main body of the Prospectus under the heading "**Hedged Classes**".

Borrowing and Leverage

The Company shall not borrow on behalf of the Fund. While the Fund does not engage in any borrowing, it may avail of a Shari'ah compliant overdraft facility on a temporary basis for settlement purposes.

The Company will use the commitment approach for the purposes of calculating global exposure for the Fund. The Fund's total exposure to the Reference Index will be limited to 100% of Net Asset Value.

Dividend Policy

Dividends will be declared on a quarterly basis for the Dist Shares, the EUR Hdg Dist Shares, the GBP Hdg Dist Shares, the CHF Hdg Dist Shares, and the MXN Hdg Dist Shares in accordance with the general provisions set out in the Prospectus under the heading "Dividend Policy" and Shareholders will be notified in advance of the date on which dividends will be paid. Distributions will not be made in respect of the Acc Shares, the EUR Hdg Acc Shares, the GBP Hdg Acc Shares, the CHF Hdg Acc Shares and the MXN Hdg Acc Shares and income and other profits will be accumulated and reinvested in respect of those Shares. Income and other profits which are accumulated are not subject to purification prior to being reinvested in respect of those Shares.

Purification of dividends

Investors in the Dist Shares, the EUR Hdg Dist Shares, the GBP Hdg Dist Shares, the CHF Hdg Dist Shares, and the MXN Hdg Dist Shares are responsible for ensuring the purification of dividends received from the Fund where such dividends have accrued prohibited income under Shari'ah principles (e.g. interest earnings). Investors shall be notified on the dividend declaration date of the percentages of prohibited income in any dividend to be paid to them and which will require purification. The Company will publish this information on the Company's website etf.invesco.com.

Trading

Application will be made to Euronext Dublin or Deutsche Boerse and/or such other exchanges as the Directors may determine from time to time (the "**Relevant Stock Exchanges**") for listing and/or admission to trading of the Shares issued and available to be issued on the main market of each of the Relevant Stock Exchanges on or about the Launch Date. This Supplement and the Prospectus together comprise listing particulars for the purposes of trading on the main market of each of the Relevant Stock Exchanges.

Exchange Traded Fund

The Fund is an Exchange Traded Fund ("**ETF**"). The Shares of this Fund are fully transferable among investors and will be listed and/or traded on the Relevant Stock Exchanges. GENERAL DESCRIPTION OF THE REFERENCE INDEX

The Reference Index is designed to reflect the performance of stocks traded in developed-market countries that pass rules-based screens for adherence to Shari'ah investment guidelines.

The Reference Index is further described below but only represents an extract of information available from public sources and neither the Directors, the Manager, S&P Dow Jones Indices LLC or such other successor sponsor to the Reference Index (the "**Index Provider**") nor the Investment Manager take any responsibility for the accuracy or completeness of such information.

The Reference Index applies screens to exclude certain securities that are deemed inconsistent with Shari'ah law based on parameters set out by a Shari'ah Supervisory Board (as described below) that has been appointed by the Index Provider, on a quarterly basis at the Reference Index rebalance (further details below).

The Reference Index is constructed by excluding securities that are involved (as defined by the parameters set by the Shari'ah Supervisory Board) in any of the following business activities: alcohol, tobacco, pork-related products, non-Islamic conventional financial services (including, but not limited to, banking and insurance), weapons & defence and entertainment (including, but not limited to, gambling, cinema, music and adult entertainment).

Remaining eligible securities are then evaluated according to several financial ratio filters and securities are excluded if they have unacceptable levels of debt or impure interest income (as defined by the parameters set by the Shari'ah Supervisory Board) based on: 1) total debt divided by trailing 24-month average market capitalisation and, 2) the sum of a company's cash and interest-bearing securities divided by trailing 24-month average market capitalisation.

The Reference Index employs a float-adjusted market capitalisation weighting scheme of remaining eligible securities.

Further details on the Reference Index and the associated Shari'ah compliance screens can be found in the methodology for the Reference Index on the Index Provider's website.

Index Committee and the Shari'ah Supervisory Board

The Reference Index is maintained by an Index Committee and all issues relating to business decisions, including index constituent changes, are within the province of the Index Committee.

A Shari'ah Supervisory Board was established to advise the Index Committee on the methodology for screening securities for inclusion in the Dow Jones Islamic Market Indices and matters relating to the Shari'ah compliance of the Reference Index constituents. The Shari'ah Supervisory Board consists of eminent Shari'ah scholars from around the world. The Shari'ah Supervisory Board is encouraged to put forth recommendations for changes to the Index Committee which in turn makes the ultimate business decision.

Further details on the Index Committee and Shari'ah Supervisory Board can be found in the methodology for the Reference Index on the Index Provider's website.

Index Rebalancing

The Reference Index rebalances quarterly in March, June, September and December. Changes are announced on the second Friday of the rebalance month and are implemented at the opening of trading on the Monday following the third Friday of the rebalance month.

The Fund will bear the costs of any rebalancing trades (i.e. the costs of buying and selling securities of the Reference Index and associated taxes and transaction costs).

OTHER INFORMATION

Taxation

The tax treatment of the Company is set out in the Prospectus of the Company and the tax information provided therein is based on tax law and practice as at the date of the Prospectus.

Shareholders and potential investors are advised to consult their professional advisers concerning possible taxation or other consequences of purchasing, holding, selling or otherwise disposing of the Shares under the laws of their country of incorporation, establishment, citizenship, residence or domicile.

Consequences of Disruption Events

Upon the occurrence of a Disruption Event (and without limitation to the Directors personal powers as further described in the Prospectus) an Approved Counterparty may make adjustments to determine the valuation of FDIs. Further information on the consequences of Disruption Events is contained in the main body of the Prospectus under the heading "**Disruption Events**".

Limited Recourse

A Shareholder will solely be entitled to look to the assets of the Fund in respect of all payments in respect of its Shares. If the realised net assets of the Fund are insufficient to pay any amounts payable in respect of the Shares, the Shareholder will have no further right of payment in respect of such Shares nor any claim against or recourse to any of the assets of any other Fund or any other asset of the Company.

Risk Factors

Certain risks relating to the Shares are set out under the heading "**Risk Factors**" in the Prospectus. In addition, Shareholders must also note that:

- a) **Equity Risk:** The value of equities and equity-related securities can be affected by a number of factors including the activities and results of the issuer, general and regional economies, market conditions and broader economic and political developments. This may result in fluctuations in the value of the Fund
- b) **Country Concentration Risk:** The Fund may be invested in a single country or small number of countries. A geographically concentrated investment strategy may be subject to a greater degree of volatility and of risk than one that is geographically diversified. The Fund's Investments will become more susceptible to fluctuations in value resulting from economic or business conditions in the country where the Fund is invested. As a consequence, the aggregate return of the Fund may be adversely affected by the unfavourable developments in such country.
- c) **Investment in Shari'ah Risk:** Prospective investors should not rely on the pronouncement of the Shari'ah Committee on the compliance of the Fund with Shari'ah in deciding whether to become an investor. Prospective investors should consult their own Shari'ah advisors as to whether the Fund and the component securities of the Reference Index are compliant with Shari'ah. By becoming an investor, each investor shall be deemed to have represented that they are satisfied that the Fund does not contravene Shari'ah. The Reference Index and its constituent holdings will be determined Shari'ah compliant by the Index Provider's Shari'ah Supervisory Board. Neither the Fund, the Manager nor the Investment Manager makes any representation or warranty, express or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of such determination. In the event that the status of such Shari'ah compliance should change, neither the Fund, the Manager nor the Investment Manager accepts liability in relation to such change, but will endeavour to inform each investor as soon as reasonably practicable following such change. Although the Fund intends to observe Shari'ah at all times, no such assurance can be given as, for example, there may be occasions when the Fund's investments do not fully comply with such criteria

for factors outside the control of the Fund. Compliance with Shari'ah may result in the Reference Index changing its component securities with limited notice in which case the Investment Manager may be required to dispose of investments in circumstances that are less advantageous than might otherwise be the case. Similarly, cash balances held by the Fund from time to time may be deposited on terms which shall grant no return on the sum deposited for the benefit of the Fund. In the event of any interest arising, such interest is intended to be donated by the Fund to charity. The performance of the Fund is measured against a specific index which is stated by the index provider to be compliant with Shari'ah. The Fund will gain exposure to the component securities of the relevant Reference Index in accordance with the guidance and advice provided by the Shari'ah Committee. As a consequence, this may mean that the Fund underperforms other investment funds with comparable investment objectives that do not seek to adhere to Islamic investment criteria (for example the inability to invest in interest bearing securities or participate in securities lending).

- d) Purification of Dividends: Pure and impure dividend amounts reported to investors will be based on the Index Provider's calculation to ensure consistency with the Reference Index. Neither the Fund, the Manager nor the Investment Manager is responsible for the Index Provider's calculation of the pure and impure dividend amounts.

Investors should also refer to the Prospectus for additional disclosure of risks and conflicts of interest.
