4. Market Makers

The listing on the SIX of the Shares in the Funds approved in Switzerland allows investors not only to subscribe for or request repurchase of Shares directly with the Company, but also to purchase or sell the Shares of the Funds approved in Switzerland on a liquid and regulated secondary market, i.e. via SIX Swiss Exchange. The procedures relating to the subscription or repurchase of the Company's Shares are set out in the Prospectus.

The complete and up-to-date list of the banking institution/s nominated by the Company in order to assume the functions as Market Maker for the trading of the Shares of the Funds listed on the SIX is available and free accessible on the website of the SIX Swiss Exchange: www.six-swiss-exchange.com.

The role of the Market Makers is to maintain a market for the Shares of the Funds listed on the SIX for which they have been appointed as Market Makers, and in this context, to introduce purchase and sale prices for the relevant Funds on the SIX trading system.

In accordance with the practice of the FINMA, each Market Maker is required to ensure that the difference between (i) the Intraday Net Asset Value per Share (calculated on the basis of the Net Asset Value per Share and adjusted to reflect price variations resulting from the trading of the underlying securities contained in the index of the relevant Fund (the "Intraday Net Asset Value")) and (ii) the price at which investors may purchase and sell the Shares on SIX is reduced to a reasonable level.

Under the terms of the Market Making Agreements between SIX and each Market Maker, the Market Makers are required, subject to specific rules and under normal market conditions, to make a market on SIX for Shares in the Funds approved in Switzerland, and as part of this obligation, to publish purchase and sale prices for these Shares on the SIX trading system with a spread as follows:
