

Invesco Quantitative Strategies Global Equity Low Volatility Low Carbon UCITS ETF

Supplement to the Prospectus

This Supplement contains information in relation to Invesco Quantitative Strategies Global Equity Low Volatility Low Carbon UCITS ETF (the "**Fund**"), a sub-fund of Invesco Markets II plc (the "**Company**") an umbrella type open ended investment company with variable capital, governed by the laws of Ireland and authorised by the Central Bank of Ireland (the "**Central Bank**") of New Wapping Street, North Wall Quay, Dublin 1, Ireland.

This Supplement forms part of, may not be distributed unless accompanied by (other than to prior recipients of the Prospectus of the Company dated 23 August 2021, as may be amended, supplemented or modified from time to time, (the "Prospectus")), and must be read in conjunction with, the Prospectus.

THIS DOCUMENT IS IMPORTANT. YOU SHOULD NOT PURCHASE SHARES IN THE FUND DESCRIBED IN THIS SUPPLEMENT UNLESS YOU HAVE ENSURED THAT YOU FULLY UNDERSTAND THE NATURE OF SUCH AN INVESTMENT AND THE RISKS INVOLVED AND ARE SATISFIED THAT THE INVESTMENT, AND THE RISKS INVOLVED, ARE SUITED TO YOUR OWN PERSONAL CIRCUMSTANCES AND OBJECTIVES. IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS SUPPLEMENT YOU SHOULD TAKE ADVICE FROM AN APPROPRIATELY QUALIFIED ADVISOR.

Capitalised terms used in this Supplement will have the meanings given to them in the Definitions section below or in the Prospectus.

Invesco Markets II plc

An umbrella fund with segregated liability between the sub-funds

Dated 16 June 2022

IMPORTANT INFORMATION

Suitability of Investment

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section headed "Risk Factors" of the Prospectus and the section headed "Other Information – Risk Factors" of this Supplement for a discussion of certain risks that should be considered by you.

In addition to investing in transferable securities, the Company may invest on behalf of the Fund in financial derivative instruments ("FDIs"), where applicable. Certain risks attached to investments in FDIs are set out in the Prospectus under "Risk Factors".

The Fund's Shares purchased on the secondary market cannot usually be sold directly back to the Fund. Investors must buy and sell Shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current net asset value when buying Shares and may receive less than the current net asset value when selling them.

The Fund is an actively managed sub-fund. The Investment Manager has appointed Invesco Asset Management Deutschland GmbH (the "Sub-Investment Manager") as sub-investment manager with responsibility for the selection of the Fund's investments on a discretionary basis.

An investment in the Shares is only suitable for you if you (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

Profile of a typical investor

A typical investor would be one who is a private or institutional investor and is seeking capital appreciation over the long term. Such an investor is also one that is able to assess the merits and risks of an investment in the Shares.

Responsibility

The Directors accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement when read together with the Prospectus (as complemented, modified or supplemented by this Supplement) is in accordance with the facts as at the date of this Supplement and does not omit anything likely to affect the importance or accuracy of such information.

General

This Supplement sets out information in relation to the Shares and the Fund. You must also refer to the Prospectus which is separate to this document and describes the Company and provides general information about offers of shares in the Company. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

As at the date of this document, the Fund has no loan capital (including term loans) outstanding or created but unissued, nor any outstanding mortgages, charges or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts and liabilities under acceptances or acceptance credits, hire purchase or finance lease commitments, or guarantees or other contingent liabilities.

Distribution of this Supplement and Selling Restrictions

Distribution of this Supplement is not authorised unless accompanied by a copy of the Prospectus and the latest annual report and audited accounts of the Company and the Fund (other than to prior recipients of the Prospectus) and if published after such report, a copy of the then latest semi-annual report and unaudited accounts. The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the Company has already complied. If you wish to apply for the opportunity to purchase any Shares, it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

Definitions

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective of the Fund

The investment objective of the Fund is to achieve a long-term return in excess of the MSCI World Index (the "**Benchmark**") by investing in an actively-managed portfolio of global equities that meet environmental, social, and corporate governance ("**ESG**") criteria while limiting the volatility of the portfolio.

Investment Policy of the Fund

In order to achieve its investment objective, the Fund will invest primarily in a portfolio of equity and equity-related securities (including warrants (received only as a result of corporate actions), tracking stocks (i.e. stocks issued by a company which represent a particular segment of that company) and depositary receipts) of companies from developed markets worldwide. Securities are selected by the Sub-Investment Manager based on three criteria: 1) compliance with the Fund's ESG policy (the "**ESG Policy**"); 2) attractiveness determined in accordance with the Sub-Investment Manager's quantitative investment model; and 3) consistency between the portfolio's expected risk characteristics and the Fund's investment objective.

Initial Investment Universe

The initial step in the investment process entails the Sub-Investment Manager defining a proprietary universe of developed market equity securities (the "**Initial Investment Universe**"). The Initial Investment Universe comprises approximately 3000 companies selected by the Sub-Investment Manager on the basis of their liquidity and free-float adjusted market capitalisation such that the Initial Investment Universe comprises the most liquid developed market equity securities which are classified as large- and mid-cap in terms of free-float adjusted market capitalisation.

ESG Policy

Then, the Sub-Investment Manager applies the ESG criteria set out in the ESG Policy to the Initial Investment Universe. The ESG Policy details both exclusionary criteria which specifically excludes industries and areas of activities and a “best in class” approach which selects those stocks from each industry that score highest according to the scoring system set out in the ESG Policy, which are applied by the Sub-Investment Manager. Specific exclusions include, those companies involved in coal, unconventional oil and gas (which may include oil sands and Arctic exploration), controversial weapons, military weapons, civilian firearms, tobacco, and activities constituting violations of the UN Human Rights Directive or the International Labour Organisation’s Labour Rights Directive. Such exclusions may vary (as more fully described in the ESG Policy) depending on the activity, from zero tolerance to exclusions based on percentage of revenue or other measures and may be updated from time to time. For more information on the ESG Policy, the criteria detailed therein and the Fund’s potential investments in sustainable activities, please refer to the website etf.invesco.com.

Portfolio Construction Approach

Following application of the ESG Policy to the Initial Investment Universe, the Sub-Investment Manager applies a two-step portfolio construction process to the remaining securities.

First, the Sub-Investment Manager constructs a low volatility portfolio comprising a portfolio of equities and equity-related securities with the lowest volatility and within the pre-determined sectorial, industrial and country deviations from the Benchmark (set out below) (the “**Low Volatility Anchor Portfolio**”). The Low Volatility Anchor Portfolio is constructed by applying an initial optimisation approach which targets an absolute reduction of portfolio absolute volatility (being the standard deviation of the returns of the portfolio against cash) whilst aiming to limit the deviation in terms of sectors, industries and countries to +/- 10% relative to the Benchmark. The portfolio absolute volatility is calculated by the Sub-Investment Manager using a proprietary factor risk model to measure the volatility and correlation of the remaining securities. The proprietary factor risk model measures the exposure of each security to certain risk factors, including the three factors described below, and ranks each security in order of their sensitivity to the relevant risk factors thereby permitting the Sub-Investment Manager to determine the volatility of any combination of the relevant securities and to select securities for inclusion in the portfolio which achieve an absolute reduction of portfolio absolute volatility.

Furthermore, as part of the initial optimisation, the Sub-Investment Manager seeks to maintain a lower carbon intensity of the portfolio relative to the Benchmark. Carbon intensity is calculated as the weighted average of the greenhouse gas emissions (CO₂ equivalents) per USD million of revenue. Details of the carbon intensity calculation can be found in the ESG Policy.

Second, the Sub-Investment Manager applies a second optimisation to the Low Volatility Anchor Portfolio based on three major factors: Value, Quality and Momentum (where Momentum comprises price momentum and earnings momentum). The Sub-Investment Manager uses factor definitions developed by the Sub-Investment Manager that are designed to deliver superior investment results relative to standard publicly available factor definitions used by, among others, the leading index providers in the market. The factors can be broadly described as follows:

- i. Value: This investment factor aims to capture the potential outperformance of companies that are perceived to be “inexpensive” relative to sector or market averages, where such determination is based primarily on various financial ratios such as debt-to-equity ratios or price-to-book ratios.
- ii. Quality: This investment factor aims to capture the potential outperformance of stocks that demonstrate a stronger balance sheet (e.g. lower levels of debt, higher profit margins) relative to sector or market averages.
- iii. Momentum: This investment factor aims to capture the potential continued outperformance of those stocks whose historical share price performance or earnings growth have exceeded sector or market averages.

The Sub-Investment Manager uses its proprietary model to rank all stocks in the remaining universe of eligible securities according to its attractiveness with respect to each of the abovementioned factors.

Rankings are done within industry groups in each region/country to ensure comparability. The second optimisation then looks to maximize the sensitivity of the Low Volatility Anchor Portfolio to the above mentioned factors. This second optimisation explicitly includes a consideration of the transaction costs and the carbon intensity constraint from the initial optimisation.

This entire ranking, risk modelling and portfolio construction process is repeated each month, following which the Fund's holdings are rebalanced by the Investment Manager in line with the new target portfolio holdings provided by the Sub-Investment Manager.

The ESG Policy of the Sub-Investment Manager is disclosed following the guidelines of the European SRI Transparency Code, which seeks to increase the accountability and clarity of Socially Responsible Investing (SRI) practices for European investors.

Other Investments

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "**Appendix III - Use of Financial Derivative Instruments And Efficient Portfolio Management**".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

The exclusionary criteria and the "best in class" approach set out in the ESG Policy do not apply to CIS. For information on the selection criteria for CIS, please refer to the ESG Policy. The ESG Policy does not apply to the other investments and FDIs mentioned in this section "Other Investments".

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "**Investment Objectives & Policies**" and under "**Investment Restrictions and Permitted Investments**".

Benchmark

The Fund will not seek to track the performance of an index. The Fund will hold an actively-managed portfolio of equities and equity-related securities with the aim of delivering superior risk-adjusted returns over the long term when compared with the average performance of global equity markets. Due to the changing volatility and return characteristics of equity markets, the fund does not have an absolute risk or return target. Rather, the Sub-Investment Manager will select the portfolio holdings through an optimisation process that utilises the Benchmark as a reference for risk and return calculations. The Benchmark measures the performance of large and mid-capitalisation companies across developed markets worldwide and is weighted by free-float market capitalisation. The target (ex-ante) tracking error of the portfolio at the time of the monthly optimization will generally be approximately 3%, and shall not exceed 5% per annum, under normal market conditions.

Integration of Sustainability Risks

The Investment Manager integrates Sustainability Risks into investment decisions for the Fund systematically as part of the core research process whereby the Investment Manager's and third-party research is continuously analysed to identify indicators, including those related to sustainability risks, which may drive better investment performance and/or reduce risk. When such correlations are verified by the Investment Manager, the relevant metrics are added as factors within the Investment Manager's core optimising models and automatically applied to reduce the relevant Sustainability Risks. For further

information on how Sustainability Risks are incorporated into the Fund's investment strategy, please refer to the section titled "Investment Policy of the Fund" above.

Transparency of the Promotion of Environmental or Social Characteristics

The Fund is an Article 8 Fund (as defined in the Prospectus).

The environmental characteristics promoted by the Fund are to gain exposure to a portfolio of equity and equity related securities which meet the ESG Policy of the Fund. The Fund promotes environmental characteristics by applying the ESG criteria set out in the ESG Policy to the security selection and portfolio construction process with a view to ensuring ongoing compliance with the standards of the Towards Sustainability.

The Fund generally expects to invest a proportion of its assets in sustainable investments. The investments underlying the Fund, however, do not currently take into account the EU criteria for environmentally sustainable economic activities as defined in Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "**Taxonomy Regulation**") and so the "do no significant harm" principle under the Taxonomy Regulation does not currently apply to the investments underlying the Fund. The Fund does not currently intend to be aligned with the Taxonomy Regulation and, at the date of this Supplement, 0% of the Fund's investments will be aligned with the environmental objectives under the Taxonomy Regulation. The Manager will keep the Fund's position vis-à-vis the Taxonomy Regulation under consideration and, to the extent required, the Supplement will be amended accordingly.

Further details on the transparency of the promotion of ESG characteristics are contained in the Prospectus under "**Appendix IV - Sustainable Finance**". In addition to the environmental characteristics promoted by the Fund and as a result of adhering to the requirements as set out in this section, the Fund aims to ensure ongoing compliance of its portfolio with the standards of the 'Towards Sustainability' ecolabel. Further information on the 'Towards Sustainability' ecolabel can be found at <https://www.towardssustainability.be/en/quality-standard>.

Investment Restrictions of the Fund

Investors in particular must note that the general investment restrictions set out under "**Investment Restrictions and Permitted Investments**" in the Prospectus apply to the Fund.

Efficient Portfolio Management

Further information on efficient portfolio management techniques that may be used by the Fund is contained in the "**Securities Financing Transactions**" section below and in the main body of the Prospectus under the heading "**Use of Financial Derivative Instruments and Efficient Portfolio Management**".

Securities Financing Transactions

The Fund may use certain '*securities financing transactions*', as defined in Regulation 2015/2365 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 ("**SFTR**"), ("**Securities Financing Transactions**"), namely securities lending. The Fund's use of Securities Financing Transactions will be subject to the requirements of SFTR and in accordance with normal market practice, the Central Bank Regulations and any other statutory instrument, regulations, rules, conditions, notices, requirements or guidance of the Central Bank issued from time to time applicable to the Company pursuant to the Regulations ("**Central Bank Rules**"). Such Securities Financing Transactions may be entered into for any purpose that is consistent with the investment objective of the Fund, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risks. Securities lending will be for efficient portfolio management purposes only.

The type of assets that may be held by the Fund in accordance with its investment objective and policies and may be subject to such Securities Financing Transactions are equities. The maximum proportion of the Fund's assets that may be subject to securities lending is 100%, however the Fund does not currently plan to carry out any securities lending and therefore the expected proportion of the Fund's assets that

may be subject to securities lending is 0%.

Securities lending means transactions by which one party transfers securities to the other party subject to a commitment that the other party will return equivalent securities on a future date or when requested to do so by the party transferring the securities, that transaction being considered as securities lending for the party transferring the securities.

All the revenues arising from Securities Financing Transactions and any other efficient portfolio management techniques shall be returned to the Fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees (which are all fully transparent), which shall not include hidden revenue, shall include fees and expenses payable to securities lending agents engaged by the Company from time to time. Such fees and expenses of any securities lending agents engaged by the Company, which will be at normal commercial rates together with VAT, if any, thereon, will be borne by the Company or the Fund in respect of which the relevant party has been engaged. Details of Fund revenues arising and attendant direct and indirect operational costs and fees as well as the identity of any securities lending agent engaged by the Company from time to time will be included in the Company's annual and semi-annual reports.

The types of acceptable counterparty and the diversification requirements are explained in Appendix III of the Prospectus. A Fund may only enter into Securities Financing Transactions with counterparties that have been selected and assessed in accordance with the Central Bank Rules. The acceptable counterparties will be entities with legal personality and located in OECD jurisdictions. They will be subject to ongoing supervision by a public authority, be financially sound and have the necessary organisational structure and resources for the relevant type of transaction.

From time to time, the Fund may engage securities lending agents that are related parties to the Depositary or other service providers of the Company. Such engagement may on occasion cause a conflict of interest with the role of the Depositary or other service provider in respect of the Company. Please refer to Prospectus section "**Potential Conflicts of Interest**" for further details on the conditions applicable to any such related party transactions. The identity of any such related parties will be specifically identified in the Company's semi-annual and annual reports.

Please refer to the "**Risk Factors**" sections in respect of the risks related to Securities Financing Transactions. The risks arising from the use of Securities Financing Transactions shall be adequately captured in the Company's risk management process.

The assets of the Fund that are subject to Securities Financing Transactions and any collateral received are held by the Depositary or its agent.

The Fund will not enter into repurchase and/or reverse repurchase agreements or Swaps.

Currency Hedging Policy

The Investment Manager will be responsible for currency hedging in respect of the Fund.

Share Class Hedging

The Fund may enter into transactions for the purposes of hedging the foreign exchange exposure in any hedged Share Classes (identified by "Hdg" in their names). The purpose of the hedging in the hedged Share Classes is to limit, at a Share Class level, the profit or loss generated from foreign exchange exposure when holding an asset in a currency other than the Base Currency of the Fund. This is achieved by the hedged Share Classes employing 30 day rolling forward FX contracts, which are rolled monthly.

Portfolio-hedged Share Class

The Company has the power to issue portfolio-hedged Shares Classes (identified by "PfHdg" in their names). For such classes of portfolio-hedged Shares, the Fund may enter into transactions for the purposes of hedging the foreign exchange exposure of the currency or currencies in which the underlying assets of the Fund are denominated to the currency of the portfolio-hedged Share Class. The purpose of the hedging in the portfolio-hedged Share Classes is to limit the profit or loss generated from foreign exchange exposure of the underlying assets of the Fund denominated in a

currency other than the currency of the portfolio hedged Share Class.

All costs and losses arising in relation to such currency hedging transactions will be borne by the hedged or portfolio-hedged Share Classes and all gains arising in connection with such hedging transactions will be attributable to the relevant hedged or portfolio-hedged Share Class. Although the Fund may utilise currency hedging transactions in respect of Share Classes, it shall not be obliged to do so and to the extent that it does employ strategies aimed at hedging certain Share Classes, there can be no assurance that such strategies will be effective. The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging the currency exposure for the benefit of any particular Share Class of the Fund (where the currency of a particular Share Class is different to the Base Currency of the Fund) shall be attributable exclusively to the Share Class. Under exceptional circumstances, such as, but not limited to, where it is reasonably expected that the cost of performing the hedge will be in excess of the benefit derived and therefore detrimental to Shareholders, the Company may decide not to hedge the currency exposure of such Share Classes.

Where the Investment Manager seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Company. However, over-hedged positions will not exceed 105% of the Net Asset Value of the relevant Share Class and hedged positions will be kept under review to ensure that over-hedged positions do not exceed the permitted level and that under-hedged positions do not fall short of 95% of the portion of the Net Asset Value of the relevant Share Class and any under-hedged position will be kept under review to ensure it is not carried forward from month-to-month. This review will also incorporate a procedure to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month.

Further information on currency hedging at Share Class level is contained in the main body of the Prospectus under the heading "**Hedged Classes**".

Collateral Policy

- (a) Non-Cash Collateral: In addition to the requirements for valuation of non-cash collateral in the Prospectus, subject to any agreement on valuation made with the counterparty, collateral posted to a recipient counterparty for the benefit of the Fund will be valued daily at mark-to-market value.
- (b) Issuer Credit Quality: In addition to the requirement for Issuer Credit Quality set out in the Prospectus, assets provided by the Fund on a title transfer basis shall no longer belong to the Fund and shall pass outside the custodial network. The counterparty may use those assets at its absolute discretion. Assets provided to a counterparty other than on a title transfer basis shall be held by the Depository or a duly appointed sub-depositary.

Further information on the criteria which collateral received by the Fund must meet is contained in the main body of the Prospectus under the heading "**Non-Cash Collateral**".

- (c) Collateral - Posted by the Fund: In addition to the requirements in respect of collateral posted to a counterparty in the Prospectus, collateral posted to a counterparty by or on behalf of the Fund will consist of such collateral as is agreed with the counterparty from time to time and may include any types of assets held by the Fund.
- (d) Valuation: Information in respect of the collateral valuation methodology used by the Company can be found in the Prospectus under the heading "**Appendix III - Efficient Portfolio Management and use of Financial Derivative Instruments**". The rationale for the use of this collateral valuation methodology is primarily to guard against the price volatility of assets being received by the Fund as collateral.

The risk exposure of the Fund to counterparties will remain within the limits prescribed in the Prospectus under "**Appendix II - Investment Restrictions Applicable to the Funds under the Regulations**".

Further information on the collateral policy is contained in Appendix III to the Prospectus under the heading "**Collateral Policy**".

Borrowing and Leverage

The Company on behalf of the Fund may borrow up to 10% of the Net Asset Value of the Fund on a temporary basis. Such borrowings may only be used for short term liquidity purposes to cover the redemption of Shares. Further information on Borrowing and Leverage is contained in the main body of the Prospectus under the heading "**Borrowing and Lending Powers**" and "**Leverage**" respectively.

The Company will use the commitment approach for the purposes of calculating global exposure for the Fund. The Fund's total exposure will be limited to 100% of Net Asset Value.

While it is not the Investment Manager's intention to leverage the Fund, any leverage resulting from the use of FDIs will be done in accordance with the Regulations.

Dividend Policy

Dividends will be declared on a quarterly basis for the Dist Shares, the EUR PfHdg Dist Shares, the GBP PfHdg Dist Shares, the CHF PfHdg Dist Shares, and the MXN PfHdg Dist Shares in accordance with the general provisions set out in the Prospectus under the heading "Dividend Policy" and Shareholders will be notified in advance of the date on which dividends will be paid. Distributions will not be made in respect of the Acc Shares, the EUR PfHdg Acc Shares, the GBP PfHdg Acc Shares, the CHF PfHdg Acc Shares, and the MXN PfHdg Acc Shares and income and other profits will be accumulated and reinvested in respect of those Shares.

Trading

Application will be made to Euronext Dublin, the London Stock Exchange or Deutsche Boerse and/or such other exchanges as the Directors may determine from time to time (the "**Relevant Stock Exchanges**") for listing and/or admission to trading of the Shares issued and available to be issued on the main market of each of the Relevant Stock Exchanges on or about the Launch Date. This Supplement and the Prospectus together comprise listing particulars for the purposes of trading on the main market of each of the Relevant Stock Exchanges.

Exchange Traded Fund

The Fund is an Exchange Traded Fund ("**ETF**"). The Shares of this Fund are fully transferable among investors and will be listed and/or traded on the Relevant Stock Exchanges. It is envisaged that Shares will be bought and sold by private and institutional investors in the secondary market in the same way as the ordinary shares of a listed trading company.

The Management Fee, a percentage of the Net Asset Value of the relevant Class of Shares (plus VAT, if any), is payable by the Company out of the Fund Assets to the Manager. The Management Fee will accrue on each day and will be calculated on each Dealing Day and paid monthly in arrears. The Manager will pay out of its fees (and not out of the assets of the Fund) the fees and expenses (where appropriate) of the Investment Manager, the Administrator, the Depositary, the Directors and the ordinary fees, expenses and costs incurred by the Fund that include Setting Up Costs and Other Administrative Expenses as described in the Prospectus.

Where a distribution fee, commission or other monetary benefit is received by the Fund, the Manager or any person acting on behalf of the Fund or the Manager of the Fund, the fee, commission or other monetary benefit shall be paid into the assets of the Fund.

Dilution Levy: The Fund will not apply a dilution levy.

This section headed "**Fees and Expenses**" should be read in conjunction with the section headed "**Fees and Expenses**" in the Prospectus.

German Investment Tax Act, 2018

In accordance with the changes introduced in the German Investment Tax Act, 2018 which are effective from 1 January 2018, the Fund intends to qualify as an equity fund as defined in section 2 sub-section 6 of the German Investment Tax Act, 2018 and will invest continuously at least **85%** of its Net Asset Value into equities (as defined in section 2 sub section 8 of the German Investment Tax Act, 2018).

Exchange of Shares

Shareholders may apply to exchange on any Dealing Day all or part of their holding of Shares of any Class of the Fund (the "**Original Class**") for Shares of another Class of the Fund which is being offered at that time (the "**New Class**") provided that all the criteria for applying for Shares in the New Class have been met.

The general provisions and procedures relating to redemptions will apply equally to exchanges. All exchanges will be treated as a redemption of the Shares of the Original Class and application to the purchase of Shares of the New Class, save that no Subscription Charge or Redemption Charge will be payable. Exchanges of Shares may be subject to an Exchange Charge of up to 3% of the Repurchase Price for the total number of Shares in the Original Class to be repurchased.

OTHER INFORMATION

Taxation

The tax treatment of the Company is set out in the Prospectus of the Company and the tax information provided therein is based on tax law and practice as at the date of the Prospectus.

Shareholders and potential investors are advised to consult their professional advisers concerning possible taxation or other consequences of purchasing, holding, selling or otherwise disposing of the Shares under the laws of their country of incorporation, establishment, citizenship, residence or domicile.

Consequences of Disruption Events

Upon the occurrence of a Disruption Event (and without limitation to the Directors personal powers as further described in the Prospectus) an Approved Counterparty may make adjustments to determine the valuation of FDIs. Further information on the consequences of Disruption Events is contained in the main body of the Prospectus under the heading "**Disruption Events**".

Limited Recourse

A Shareholder will solely be entitled to look to the assets of the Fund in respect of all payments in

respect of its Shares. If the realised net assets of the Fund are insufficient to pay any amounts payable in respect of the Shares, the Shareholder will have no further right of payment in respect of such Shares nor any claim against or recourse to any of the assets of any other Fund or any other asset of the Company.

Risk Factors

Certain risks relating to the Shares are set out under the heading "**Risk Factors**" in the Prospectus. In addition, Shareholders must also note that:

- (a) **Active Management Risk:** The Fund's assets will be actively managed by the Investment Manager, based on the expertise of individual fund managers, who will have discretion (subject to the Fund's investment restrictions) to invest the Fund's assets in investments that it considers will enable the Fund to achieve its investment objective. There is no guarantee that the Fund's investment objective will be achieved based on the investments selected.
- (b) **Equity Risk:** The value of equities and equity-related securities can be affected by a number of factors including the activities and results of the issuer, general and regional economies, market conditions and broader economic and political developments. This may result in fluctuations in the value of the Fund.
- (c) **Environmental, Social and Governance Risk:** The Fund intends to invest in securities of issuers that manage their ESG exposures better relative to their peers. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities. The Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.

Investors should also refer to the Prospectus for additional disclosure of risks and conflicts of interest.
